PROFILE

Software Engineering Undergraduate with experience in designing and developing scalable web and mobile applications. Proficient in React, Next.js, React Native, Python, and Spring Boot. Experienced in developing RESTful APIs, implementing CRUD operations, and working with SQL and NoSQL databases (e.g., MySQL, MongoDB). Strong understanding of Object-Oriented Programming (OOP), Data Structures and Algorithms, and clean architecture principles. Familiar with Agile/Scrum methodologies, version control using Git, and collaborative team development. Demonstrates strong problem-solving skills with a proven ability to learn new technologies quickly. Active participant in competitive programming and inter-university software development competitions.

EDUCATION

B.Sc. Honors in Software Engineering (Reading) 2023 - 2027

Sabaragamuwa University of Sri Lanka | Current GPA: 3.74 / 4.00

Diploma in HRM 2021 - 2022

LPEC Campus Kiribathgoda | Merit Award

Physical Science Stream 2012 -2021

Bandaranayake Central Collage-Veyangoda, Sri Lanka

WORK EXPERIENCE

Intern

Aug 2022 - July 2023

Hatton National Bank PLC Pugoda, Sri Lanka

PROJECTS

Gemora – AI Powered Digital Gemstone Trading & Auction Platform | Third Year Project | Group

Frontend Developer | UI/UX Designer | AI Integration | React, React Native, Spring Boot, MySQL, TensorFlow, Python

- Developed responsive and scalable frontend interfaces using React.js and React Native (Expo) for a real-time gemstone trading and auction platform.
- Designed complete UI/UX in Figma, improving usability, user flow, and overall user experience.
- Integrated AI-based features including gemstone analysis and chatbot using TensorFlow and Gemini API.
- Consumed RESTful APIs built with Spring Boot and managed state using Zustand, ensuring efficient data handling and real-time updates.
- Implemented key modules such as auctions, dashboards, and marketplace features following reusable component architecture.

Email_Ms–University Project Management System | Second Year Web Project

Full Stack Developer | Group Leader | Node.js, Express.js, MongoDB, React, AWS

- Led a 3-member team, managing tasks, timelines, and project delivery.
- Developed full-stack web application for project submission, tracking, and student-lecturer communication.
- Built responsive UI/UX with React.js and dashboards for real-time notifications.
- Implemented RESTful APIs with Node.js/Express.js and designed MongoDB schemas for efficient data management.
- Key features: project allocation, progress tracking, submission management, automated notifications.
- Deployed application on AWS; followed Agile/Scrum, Git-based version control, and conducted code reviews.

ISH Cosmetics – Full-Stack E-Commerce Platform | Personal Project

Full-Stack Developer | React.js, Node.js, Express.js, MongoDB, JWT, Supabase, Tailwind CSS

- Developed a secure and scalable full-stack e-commerce platform for online cosmetics shopping. Built responsive frontend with React.js and Tailwind CSS for optimal mobile and desktop performance.
- Implemented RESTful APIs with Node.js/Express.js for product management, order processing, and user authentication. Enabled secure authentication with JWT, bcrypt hashing, and Google Login integration.
- Developed admin dashboard for product, order, and user management with role-based access control. Integrated Supabase Storage for efficient product image management and seamless frontend-backend communication.

PawTrack – Street Pet Reporting & Adoption Platform | Personal Project

Full-Stack Developer | Next.js, TypeScript, FastAPI, PostgreSQL, Tailwind CSS, Google Maps API, Chatbot, UI/UX

- Developed a full-stack platform to report, locate, and adopt street pets, improving accessibility in animal welfare.
- Built responsive UI with Next.js, TypeScript, and Tailwind CSS for enhanced usability and performance. Implemented RESTful APIs with FastAPI and PostgreSQL for secure data management of pets and users. Integrated Google Maps API for location-based reporting and visualization of street pets.

- Developed a rule-based chatbot (PawBot) to assist users and improve platform navigation. Implemented secure authentication to protect adoption actions and user data

TECHNICAL SKILLS

- **Programming Languages** — TypeScript | JavaScript | Java | C | Python | SQL
- **Frontend** — React.js | Next.js | TailWindCSS | React Native(Expo) | HTML/CSS
- **Backend** — Spring Boot | Express.js | Node.js| Fast API
- **Databases** — MySQL | PostgreSQL | Supabase | MongoDB
- **Cloud & DevOps** — Docker | Git/GitHub
- **Concept and Practices** — MVC Architecture | Clean Architecture | RESTful APIs | OOP | Agile | CI/CD
- **Tools** — Jira | Postman | Figma
- **AI & Automation** — OpenAI API integration | NumPy | Pandas | TensorFlow

SOFT SKILLS

Analytical Thinking | Communication | Collaboration and Teamwork | Attention to Detail | Problem Solving | Adaptability | Creativity and Innovation | Interpersonal Skills

VOLUNTEERING

Secretary - Present

IEEE WIE Student Branch Affinity Group Sabaragamuwa University of Sri Lanka [🔗](#)

Vice Secretary - 2024-2025

IEEE WIE Student Branch Affinity Group Sabaragamuwa University of Sri Lanka [🔗](#)

Technical Team

ICARC-International Conference of the Advanced Reachech of Computing

Technical Moderator

ICMR-International Conference of the Management Researches

Secretary(SUSL OC) -2025

SLI Career Compass Session- IEEE Sri Lankan Section [🔗](#)

ACHIEVEMENTS

First Runner-up-Innovation Nation Sri Lanka – Sabaragamuwa Provincial Competition 2025 [🔗](#)

COURSES

Diploma in Modern Project Management [🔗](#)

Alison

Machine Learning with TensorFlowon Google Cloud [🔗](#)

Udemy

Automate Cybersecurity Tasks with Python [🔗](#)

Google

Fundamentals of DevOps [🔗](#)

KodeKloud

Full-Stack Web Development (MERN) [🔗](#)
